

## PATH TO CARBON NEUTRALITY

2022 Shanghai International

# CARBON NEUTRALITY EXPO

in Technologies, Products  
and Achievements

**Approved by:** Shanghai Municipal People's Government

**Liaised by:** Shanghai Municipal Development & Reform Commission

Shanghai Municipal Commission of Economy and Informatization

Shanghai Municipal Commission of Commerce

Shanghai Municipal Education Commission

Science and Technology Commission of Shanghai Municipality

Shanghai Municipal Bureau of Ecology and Environment

Shanghai Municipal Commission of Housing and Urban-rural Development

Shanghai Municipal Transportation Commission

Shanghai Municipal Agricultural and Rural Committee

Shanghai Municipal Financial Regulatory Bureau

Shanghai Landscaping & City Appearance Administrative Bureau

**Hosted by:** Council for the Promotion of International Trade Shanghai

**Organized by:** Shanghai International Exhibition (Group) Co., Ltd.

Shanghai Energy Conservation Association

**Activities**

- To demonstrate efforts made by countries around the world facing up global climate changes, showcase periodic achievements of carbon reduction, strengthen international cooperation and exchanges.
- To build a platform for assisting China to realize its goal of carbon peaking by 2030 and carbon neutrality by 2060
- To display technologies, products, achievements and integrated solutions on carbon reduction at home and aboard; to realize expo effects and values via innovative mode to make it professional, market-based, international and branded.

# Function

# CATEGORIES

## Energy Conversion

Low Carbon Efficiency of Fossil Energy,  
Transformation of Alternative Clean Energy,  
Construction of New Electric Power System

## Energy Efficiency

Green Building, Construction Eco-materials, Process  
Improvement and Technique Upgrade, Digital  
Transformation, Green Manufacturing, Energy-saving  
Management, Green Supply Chain

## Low-carbon Service

Academic Institution, Green Finance,  
Inspection & Certification, Consulting, Legal  
Service, Talent Service

## Low-carbon Transportation

New Energy Automobile, Solutions for  
Supply Chain, Infrastructure for Low-carbon  
Transportation, Green and Smart Mobility

## Circular Economy

Circular Reformation, Circular Agriculture,  
Resource Recycle (Reusing of Solid Waste,  
Living Garbage, Construction Debris)

## Practice & Exploration

Advanced Technology, Carbon Sink & Fixation, Carbon  
Market 's Low-carbon Practice & Cases, Low-carbon  
Lifestyles

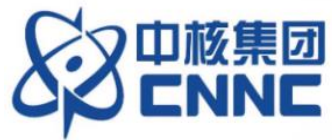

## Energy Conversion

Exhibitors from:

Oil Efficiency, Coal Efficiency, Gas Efficiency, Photovoltaic, Wind Energy, Hydropower, Nuclear Energy, Hydrogen Energy, Biomass Energy, Smart Grid, UHV Transmission, Energy Storage Technology

## Low-carbon Transportation

Exhibitors from:

New Energy Automobiles, Infrastructure for Low-carbon Transportation, Supply Chains of Ports/Shipping/Air Freight, Urban Rail Transit, Green and Smart Mobility

## Energy Efficiency

Exhibitors from:

Green Building, Construction Eco-materials, Low-carbon Logistics of Construction Materials, Low-carbon Construction, Assemble Energy-saving Technology, Construct Electrification Reformation, Smart Property Management, Intelligent Energy-saving Technology, Energy-saving Appliances, Smart Control System, Energy-saving Device & Equipment, Low-carbon Technology of Iron & Steel, Chemical Engineering and Nonferrous Metal, Technology of New Materials, Raw Material Recycling Technology

# VISITORS

# Activities

- ◆ Summit
- ◆ Sub-forum
- ◆ Parallel Sessions
- ◆ Roadshow
- ◆ Press Conference
- ◆ Onsite Activities
- ◆ Signing Ceremony
- ◆ Match-making Meetings

***Constitute*** a key-note plenary and parallel sessions

***Focus*** on the top-level design of carbon neutrality, including industry identification, standard setting, regulation agreement, market entry threshold etc.;

***Explore*** paths of low-carbon technology development, including transfer and licensing of technology, green industry upgrading, etc.;

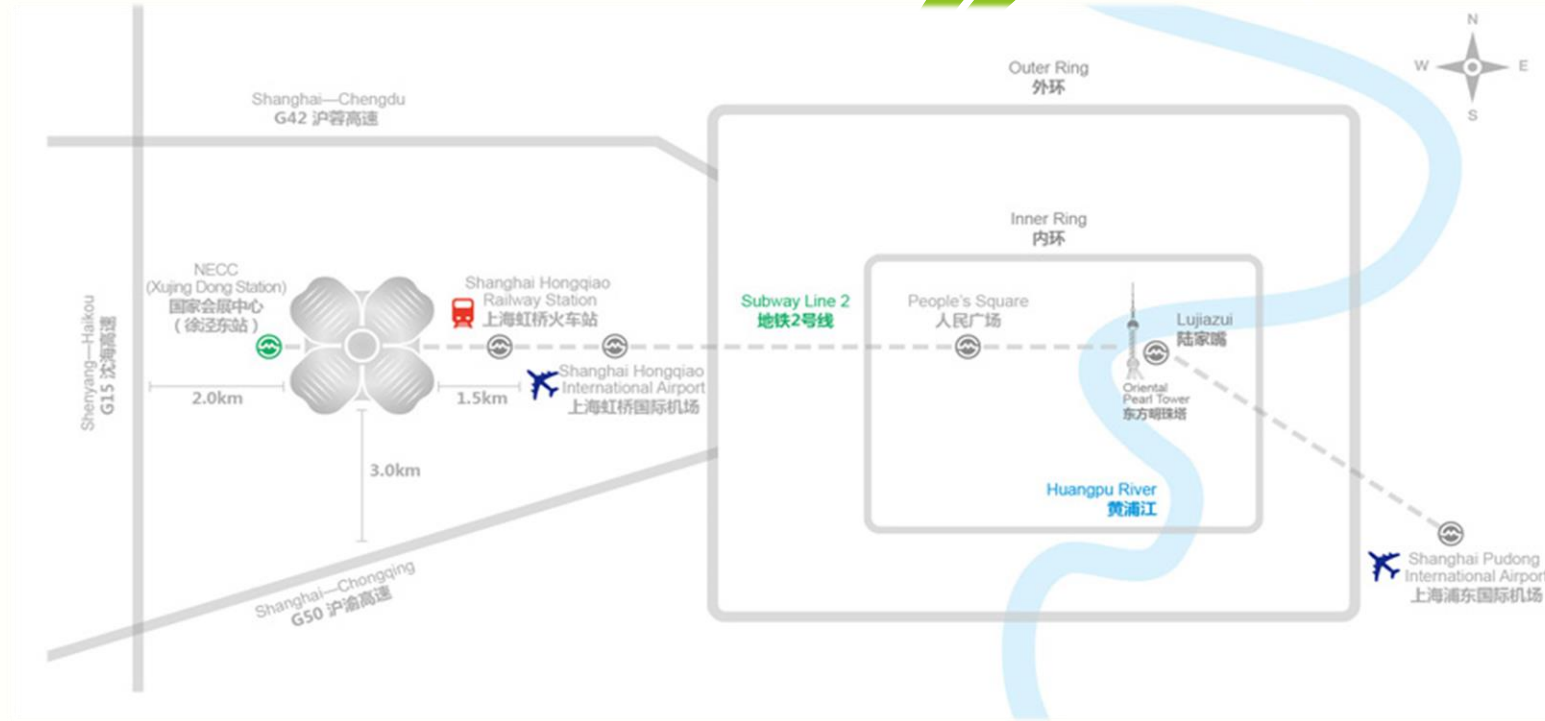

***Facilitate*** technology innovation and industry revolution including the green transformation of global supply chains and industry chains, etc.;

***Analyze*** the eco-trend of international investment in the future.
