Services In Gemmology, Lapidary And Jewellery  
Technology**

## ABOUT TGC

The Tanzania Gemmological Centre was formed in the year 2003, with an objective to offer in-house training on Gem and Rock Carving so as to enhance value addition skills. The centre was known as Arusha Gemstone Carving Centre (AGCC) until year 2009 when the name was changed to Tanzania Gemmological Centre (TGC). The name changes was due to the changes in the Minerals Policy of Tanzania (2009) which lead to the changes in the objectives of the centre to include Gemmology, Lapidary and Jewellery training.

The Tanzania Gemmological Centre (TGC) is full registered and fully Accredited by National Council for Technical and Vocational Education and Training (NACTVET) with Reg. No REG/SAT/033 to offer a Diploma in Gem & Jewellery Technology.

## VISION

To be the Centre of Excellence in creating professionals and supporting the Gem and Jewellery industry in Africa.
