

## ● COMPANY PROFILE

*Welcome to Croissance Group, where we manufacture spares for Imported Voge / Volvo Sensor Paver and Milling Machine. Being the market leaders for the said replacement parts, we are successfully catering to almost all the top infrastructure companies across the country. Majorly spares are manufactured by us in our unit in Gurugram, Haryana, India. Having etched a respectable name in the Indian market, we have now started exporting the said parts globally. Providing top quality spares at reasonable prices has been our motto which has helped us achieve volume sales and a very satisfied customer base. We also provide installation and repair services for spare provided by us for Imported Sensor Paver. Our customers need not worry about the fitment issue as our engineers are well trained to fit the spares provided by us. Almost all our customers have long been associated with us and can vouch for our products and services. Located in New Delhi, India, we are one of the oldest leading manufacturers for aftermarket spares of Imported Sensor Pavers in India. We are best known for Paver refurbishments and top-quality spares for the said machine.*

*With roots that go back to more than 16 years, we have etched a respectable place for ourselves in the national market by supplying quality spares and repairing imported sensor pavers. With our well qualified and experienced team of engineers, we have successfully refurbished many Volvo / Voge / Pavers at our workshop in Gurugram, India at customer's construction sites as well. Providing on-site commissioning (by our engineers) of Pavers refurbished/ sold by us is offered to our customers locally and GLOBALLY.*

*We have technical expertise, state of the art production facilities, responsive after sales service to satisfy customers' requirements.*

# OVERVIEW

*Our spare parts are used in Road construction industry. Specializing in spares for Paver and Milling machines which are critical part for any road construction site, we are the biggest in the country after OEM.*

# DESCRIPTION OF PRODUCTS

*We at Croissance Group understand that the strength of our business lies in quality of our product. We adopt latest technology while manufacturing our products and use the best quality raw material procured from reliable sources. We constantly improve and upgrade as per the technological changes and industry requirements. We are dedicated to achieving excellence in our work.*

*All mechanical parts are manufactured in house on automatic CNC and VMC machines, surface grinder, drilling machine etc. There are strict quality checks while production of each part and Pre-Dispatch Inspection reports is a norm followed by us. The parts are manufactured and checked as per drawings made by our designing team on AutoCAD and Solid works software.*

*All Vogele / Volvo/Pavers sold or refurbished by us are with warranty and go through strict quality checks before shipping to our customers (National and Overseas).*

*Apart from this we also repair electrical panels and sensors etc. for all kinds of construction machines, hence, saving a lot of money for our customers*

# KEY COMPANY STATISTICS
