

# **Ecobia - Company Profile and Embassy Assistance Request**

We would like to thank you for your interest and support regarding Ecobia's expansion plans into the United Arab Emirates.

Please find below a brief profile of our company and a formal request for assistance from the Embassy.

## **Ecobia - Company Profile**

Ecobia is an innovative environmental technology company specializing in organic waste recycling through aerobic digestion. Our flagship product, Ecosoil+, is a high-quality organic soil enhancer derived from food waste, designed to improve soil health and agricultural yield sustainably.

Our mission is to reduce food waste, regenerate soil health, and contribute to a circular economy by turning organic waste into valuable agricultural inputs. Ecosoil+ has been successfully trialed in various agricultural and landscaping applications and offers significant benefits for arid and low-fertility soils such as those found in the UAE.

We aim to expand our aerobic biodigester systems into the UAE market, where we believe there is great potential for our technology to support local sustainability and food security goals.

## **Embassy Assistance Request**

We respectfully request the assistance of the Embassy in the following areas to support our market entry into the UAE:

1. Arranging introductory meetings with relevant Emirati entities such as:
  - Ministry of Climate Change and Environment (MOCCAEE)
  - Abu Dhabi Agriculture and Food Safety Authority (ADAFSA)

- International Center for Biosaline Agriculture (ICBA)
- Masdar (Abu Dhabi Future Energy Company)
- Local municipal waste authorities and sustainability councils

2. Providing guidance on local regulations and permitting related to soil enhancers and organic waste recycling.

3. Recommending additional Emirati partners or stakeholders who may have an interest in cooperating with Ecobia in sustainable agriculture or waste-to-resource initiatives.

We look forward to collaborating closely with the Embassy to support this initiative and foster meaningful partnerships within the UAE.

Sincerely,

Ecobia Team
