

PUUSTELLI GROUP OY

Company Overview

- Puustelli Group is the leading Scandinavian manufacturer of high-quality kitchen and fixed furniture in projects (B2B) and retail (B2C)
- Puustelli is known for its premium Scandinavian timeless design, sustainability, durability and cutting-edge innovation
- Established in 1977 as part of Harjavalta Oy, Puustelli has grown into a trusted brand in the European kitchen furniture industry
- Since 1983, we have been Finland's largest and leading manufacturer of fitted kitchens
- Puustelli offers a unique full-service concept covering design, ordering, scheduling, on-time delivery, installation, and after-sales service
- Builders and developers are served through our dedicated project organization
- We have the highest customer satisfaction in the industry
- The countries of operations include Finland, Sweden, Estonia, United Kingdom, and United States

Production

- All Puustelli kitchens are manufactured in our own production plant in Harjavalta, Finland
- The plant has an annual production capacity of 15,000–20,000 kitchens
- We employ approximately 1,000 professionals across various functions
- Our products are custom-manufactured using the latest technology to meet individual customer needs
- We collaborate with over 120 European partners – globally respected and responsible companies we've worked with for decades
- Puustelli is committed to carbon-neutral manufacturing by 2035, minimizing environmental impact at every stage
- Our operations are certified by international standards:
 - ISO 9001 – Quality Management System
 - ISO 14001 – Environmental Management System
 - ISO 45001 – Occupational Health and Safety Management System

Products

- Puustelli has one of the widest product selections in Europe, ensuring solutions for every taste and need
- We make our products by using only the finest materials available. Our carefully selected materials include natural woods such as oak, birch, and pine, as well as high-quality melamine and HPL-faced chipboard and MDF. We also incorporate premium surfaces like quartz, ceramic and glass
- The kitchens are manufactured based on customers' requirements and measurements
- The cabinet range consists of over 100 different units which can be tailored with different mechanisms and in measurements required by customer
- Puustelli's products are approved by the best indoor air emission class M1 to ensure our kitchen furniture emit extremely low levels of compounds into the room space
- Additionally, we offer patented ecological Puustelli Miinus kitchen in sustainable kitchen cabinets. Puustelli Miinus consists of ecological materials and breakthrough production method
