PROSPECTUS

**Building Sustainable Real Estate and Green Infrastructure
Development in Southern Africa**

WELCOME TO SOUTHERN AFRICA ECO-INFRASTRUCTURE SUMMIT 2026

It is with great excitement that we introduce the Southern Africa Eco-Infrastructure Summit (SAEIS), a landmark gathering dedicated to shaping the future of sustainable real estate and green infrastructure within the southern Africa region. As Southern Africa navigates the urgent challenges of urbanisation, climate change and infrastructure development, the summit emerges as a strategic platform to drive collaboration between public and private stakeholders. We unite real estate developers, government leaders, urban planners, ESG professionals, investors, contractors, and innovators committed to building smarter, greener, and more resilient built environment.

This high-level event is more than a conversation, it is a call to action, showcasing innovative green real estate technologies, unlocking solutions, inform, and mobilise real change across eco-infrastructure sector

We invite you to explore the opportunities within this prospectus and join us in advancing sustainable development for a thriving Southern Africa.

We look forward to welcoming you as a valued partner at the Southern Africa Eco-Infrastructure Summit 2026.

TARGET AUDIENCE

– WHY ATTEND?

The Southern Africa Eco-Infrastructure Summit attracts a diverse mix of stakeholders across the sustainable real estate and green infrastructure value chain.

Government & Policy Makers

- Ministers of Housing, Infrastructure, Energy, Environment, and Urban Development
- Municipal leaders and city planners
- Regulators and policy advisors
- State-owned enterprises

Why attend? To shape policies, showcase national infrastructure priorities, and attract investment.

Real Estate & Infrastructure Developers

- Commercial and residential developers
- Urban planners and architects
- Green building councils and associations
- Construction companies

Why attend? To identify sustainable project opportunities and explore innovative building solutions.

Investors & Financial Institutions

- Venture capitalists and private equity firms
- Development finance institutions (DFIs)
- Commercial banks and asset managers
- Sovereign wealth funds

Why attend? To access a pipeline of bankable projects in Southern Africa.

TARGET AUDIENCE

– WHY ATTEND?

Corporate & Industry Leaders

- CEOs, COOs, and decision-makers from construction, energy, and manufacturing sectors
- Engineering, procurement, and construction (EPC) firms
- Building material manufacturers and suppliers

Why attend? To showcase expertise, secure contracts, and build partnerships.

Technology & Innovation Providers

- Smart city and digital infrastructure companies
- Renewable energy and clean-tech providers
- Water and waste management innovators
- Green mobility and transport solution providers

Why attend? To introduce cutting-edge solutions to support sustainable cities and infrastructure

Professional Services

- Legal advisors, consultants, and compliance experts
- Environmental, social, and governance (ESG) consultants
- Project management and engineering firms
- Real estate brokers and property managers

Why attend? To position themselves as enablers of sustainable infrastructure growth

TARGET AUDIENCE

– WHY ATTEND?
