Prodo's barcode labels are multipurpose and easily customizable. These recyclable labels can be used to create address shipping labels for packages, envelopes, hardware, racking labels, organizing office files, and much more.

# Plastic Pallets

Material	HDPE
Volume Capacity	Upto 3000Kgs (Static Load) Upto 1500Kgs (Dynamic Load)
Colors	Blue, Red, Black, Gray
Design	Rackable, Non-Rackable
Dimensions	Customisable
Common Use	Storage

These plastic pallets are designed to handle all activities including lifting, moving, stacking, storage, and shipment. They are nestable in nature and occupy less space.

# Insulated Pouch

Material	Foil, LDPE and Foam
Insulating Capacity	Upto 24 hrs temperature control
Dimensions	Thickenss: <3mm
Common Use	Insulation
Designs	With Flap/ Lip-Lip closing

Our insulated pouches are made up of aluminum film and foam paper, which are all safe for food. They are lightweight, moisture-proof, shock-proof and have thermal insulation.

# Plastic Seal

Material	HDPE
Colors	Red, Blue and Yellow
Design	Metal Locking
Dimensions	Width: 2.5 - 3.6 mm Length: 9 - 12 in
Common Use	Tieing

Prodo's plastic seal is easy-to-use and comes with a pull tight locking system. It is available in multiple colors.

# Thermal Roll

Material	Paper
Recyclable	
Dimensions	Length: < 300m Width: < 2 in
Common Use	Billing Roll

Thermal rolls are high-quality labels and can stick to a variety of surfaces including metal, cardboard, and plastic. A compatible thermal barcode printer is needed to print addresses, barcodes, logos, and other useful information onto these labels.

# Metal Trolley

Material	SS and MS
Volume Capacity	Weight Capacity: less than 500 kgs
Design	Caster Wheel : Rigid/Swivel
Wheel Material	Rubber, PVC, Poly Utherane (PU), Metal, Nylon
Common Use	Warehouse Movement
Color Technique	Powder Coating or Spray Painted

Our platform trolley is a combination of heavy duty structure and folding design. It comes with a 360° swivel caster-wheels to enable easier mobility in a variety of spaces.

# Plastic Crates

Material	HDPE
Weight Capacity	upto 100 Kgs
Recyclable	
Design	Rackable/non-rackable
Common Use	Crate Ideal for storing clothes,vegetables

Our plastic crates are light in weight and highly durable. They are manufactured using high-quality HDPE plastic and are UV resistant. They are also resistant to any damage from environmental stress such as a crack or a chip. Available in blue and red variants.

## Woven Roll

Material	Poly Propylene (PP), Jute & Cotton
Weight Capacity	Upto 100 kgs
Recyclable	
Dimensions	Width: 1.5 m Weight: <100 KGs per roll
Common Use	Packing

Woven rolls are made from quality tested polypropylene strings, which makes it ideal for creating products like vehicle covers, packaging bags, sacks, and more. This fabric is lightweight, washable, and resistant to wear and tear. It also has an excellent finish due to its standardized machine weave.

## Muslin cloth

Material	Cotton 100%
GSM	70 - 120
Recyclable	
Common Use	Steaming, canning, wine making

Muslin cloth is made up of pure cotton, which makes its skin-friendly and easily recyclable. It is lightweight, washable, unshrinkable, and soft in touch.

# M-Fold Tissue

Material	Paper
GSM	50-70
Recyclable	
Common Use	Cleaning

Prodo's premium tissues are manufactured from optimum quality paper pulp using innovative techniques. It is highly appreciated for its fine finish and moisture-proof features.

# SS Bottles

Material	Stainless steel
Volume Capacity	Upto 1000 mL
Recyclable	
Color Technique	Powder Coated or Printing
Cap Design	screw top/flip top/sipper
Common Use	Regular drinking water bottle

Our water bottles are durable and sturdy, making them fit for long-term use. Unlike plastic bottles, these bottles are made from stainless steel and do not retain any taste.

# SS Pallets

Material	Stainless Steel
Weight Capacity	< 1000 Kgs
Recyclable	
SS Grade	SS 304 and SS 202
color Technique	Powder Coated or painted
Common Use	Storage

These stainless steel pallets are best suited for shipping large bundles, products, or organizing warehouse spaces. These pallets have a recess beneath them, making them feasible to be lifted by a forklift or other jacking device.

# Kitchen Preparation Counter

Material	Stainless Steel
SS Grade	SS 304 and SS 202
Volume Capacity	400L
Designs	Under Counter Door: Single, Double doors
Color technique	Powder Coated or painted

Prep tables, counters, and cutting surfaces are an essential to any commercial kitchen and are available in various sizes. The stainless steel makes them sturdy enough to resist corrosion, attack from food and juices, and withstand the harsh cleaning products used in commercial kitchens.

# Tiffin Lunch Box

Material	Stainless Steel and PET
Volume Capacity	600 - 2000 mL
Recyclable	
Material Grade	SS 304 and Food Grade plastic
Common Use	Microwave Safe Food Container

This insulated lunch box is compact in size and easy-to-carry. It is made from stainless steel, and 100% BPA-free, food grade virgin plastic.

# Vegetable Cutter

Material	Stainless Steel Blade with HDPE
Recyclable	
Material Grade	SS 304 and Food Grade Plastic
Common Use	Chopping
Designs	Chopper with body, pusher, whisk & chopping blade

Our vegetable cutter comes with a unique string function to chop vegetables and fruits with ease. It has a 3-blade design made from stainless steel, giving it a sturdy and compact look. It is made from unbreakable ABS plastic for a long lasting use.

# Cooking Apron

Material	Non-Denim Fabric (PC Fabric)
GSM	200 - 300
Recyclable	
Design	Front Pocket

Volume Capacity	140 L
Designs	With Lid

Our ingredient bin has a capacity of 140 litres, making it perfect for storing large amounts of food. It also includes a scoop for picking up ingredients in a sanitary and effortless way.

# Ceramic Mugs

Material	Bone China, Porcelain Coating
Volume Capacity	300 mL
Recyclable	
Dimensions	Customised
Common Use	Drinkware
Design	With Handle and Without Handle

These ceramic mugs are made from high-quality ceramic. They are a safe and eco-friendly alternate to the usual plastic tumblers.

# Paper Bowl

Material	Paper
GSM	250
Weight Capacity	Upto 600 mL
Recyclable	
Common Use	Food Container
Designs	With & without Lid

Our paper food containers are a sustainable packaging option for take away food. They provide versatile packaging solutions for a wide range of take away foods such as salads, soups, noodles, pasta, ice cream, and more. These containers can be customized as per your branding, size, and color requirements.

# Cast Iron Kitchen Ware

Material	Cast Iron
Recyclable	
Common Use	Healthy non-stick cookware
Design	Suitable For Gas And Induction Stoves. Fully seasoned Product with ultra smooth finished

Prodo's heavy-duty iron cookware is valued for its heat retention, durability, and non-toxic coating. These cookware have the ability to maintain high temperatures for longer time duration. The cast iron cookware collection includes frying pans, dutch ovens, skillets, dosa tawa, kadhai, and more.

# SS Comm Rice Steamer

Material	Stainless Steel 304
Dimensions	26.3L*22W*43.3H all in inches
Weight Capacity	15kg

Stainless steel steamer pot has an elegant design and can easily fit in your kitchen. It is compatible with both gas stove and induction. You can use it for preparing delicacies like momos, modaks, potatoes, and more. It offers a clean and hygienic cooking experience.

# Ceramic Plates

Material	Ceramic plates
Common Use	Serving food
Design	Easy to clean, Heat resistance Available in several sizes, Stainless steel, Ideal kitchen utensil, Uniform thickness.

Our ceramic plates are made from AB-grade porcelain and BPA-free. These dinner plates have a sleek design, offer reliable strength and heat resistance. They are easy to clean, and are available in different sizes.

# Aluminium Ladder

Material	Aluminium
Designs	4, 6, 8 and 10 Steps
Weight Capacity	Maximum Static Load:150kg
Recyclable	
Common Use	Multitasker

These ladders are built from rust proof, high-grade aluminium and are fit for use in all weather conditions. Its HDPE components ensure maximum protection from corrosion.

# Dough Kneader

Material	Mild Steel
Weight Capacity	50kg
Recyclable	
Design	Semi automatic
Common Use	Bread Making

Prodo's dough kneader is made with cutting edge technology and superior quality steel. It is a semi-automatic machine , commonly used for making bread and mixing cooking ingredients with ease.

# Mono Carton

Material	Paper, Solid Bleached Suplhate (SBS), Folding Box Board (FBB) and Duplex Paper
Dimensions	Customizable
GSM	250 - 400
Designs	Top Closing, Side Closing
Common Use	Personal Care and Food Packaging

These mono cartons are commonly used for compact packaging of products. We offer size customization and branding options, making them fit for multiple uses across industries.

# Meal Box

Material	Baggase, Poly Propylene (PP)
Volume Capacity	200 - 1500 mL
Recyclable	
Dimensions	Customizable
Common Use	Packing
Design	With compartments & closing Lid

Simple, fast, easy to use meal Box.

## Disposable Containers

Material	Baggase, Poly Propylene (PP)
Dimensions	customizable
GSM/MICRON	GSM: 200-500 (Paper) Micron: 300-500(PP)
Recyclable	
Common Use	Food Packaging
Volume Capacity	< 1200 mL (Paper), < 1500 mL(PP)
Design	With & Without Lid

These disposable containers are both microwave and refrigerator safe. They are made from bagasse and offer convenient food storage and delivery. They are available with and without lids, and in different sizes. You can customize them as per your needs.

# Disposable Plates

Material	Paper/Baggase
Recyclable	
Dimension	6 in - 11 in
Common Use	Food Serving

These paper and bagasse plates are affordable and easily biodegradable. These plates come with exceptional insulation and apt depth.

# Wooden Cutlery

Material	Wodden
Dimension	110mm-160mm
Common Usage	Usage/Application Kitchen

Ditch the traditional plastic cutlery, and switch to Prodo's environment-friendly wooden cutlery. It has an elegant design and adequate strength for the purpose of eating.

# Disposable Straw

Material	Paper/PP
Dimension	9 in
Recyclable	
Common Use	Sipping

We have the perfect paper straws for you- that don't get soggy. Prodo's paper straws are durable, recyclable, and non-toxic. They are perfect for drinking milk shakes, cold coffee, fizzy drinks, and other beverages.

# Garbage Bags

Material	LDPE (Oxo-biodegradable)
Micron	Upto 100

# Tissue Paper

Packing Paper Form	Sheet
Sheets per Bundle	100
Color	White

Tissue papers are soft, permeable paper sheets used for facial cleansing and other hygiene purposes. These single-use tissues, often called boxed tissues, are packaged in a cardboard box for easy, one-time usage. These tissue paper boxes are commonly used in rest rooms, comfort rooms, and other public spaces. These boxes can easily be mounted in wall dispensers for ease of use.

# Toilet Paper Roll

Material	Paper
GSM	15,25
Color	White

Toilet paper is a paper-based tissue product used to promote personal hygiene and cleanliness. They are commonly used in restrooms in schools, restaurants, hospitals, offices, and other public places. They are usually installed in a dispenser for convenient use.

# Handwash dispenser

Material	HDPE and Stainless Steel
Capacity	500-700ml
Color	Customisable

Hand wash dispensers are widely used to prevent soap waste by dispensing only a specific amount of soap with every use. Users can easily wash their hands without touching the dispenser's handle or pump by using automatic hand wash dispensers. They are commonly used in lavatories in dining establishments, lodgings, educational institutions, medical facilities, and factories.

# Bathing Soap

Weight(g)	50g,75g,100g
Fragrance	Aqua Mint, Jasmine, Lavender, Rose, Lemon
Usage/Application	Bathing

Bath soaps are cleansing agents used to remove dirt and germs from the body. Prodo's bath soaps are made from skin-friendly, natural substances to prevent skin irritation, dryness, and allergies. Use these bath soaps to maintain good hygiene and prevent disease. You can pick from a variety of bath soaps that we provide.

## Liquid Handwash

Capacity(ml)	500ml,1000ml,5000ml
Fragrance	Aqua Mint
Form	Liquid

Liquid handwashes are used to clean and wash dirty hands. They help remove grease, dirt, and germs during handwashing. Liquid handwashes can easily be used from a dispenser to avoid the spread of germs and come in handy in places that require regular hand washing, such as hospitals, gyms, factories, and others. These liquid handwashes create an easy lather and use less water and soap than other alternatives.

# Room Freshener

Usage/Application	Rooms, Office
Packaging Type	Bottle
Fragrance	Sandal, Rose, Jasmine

Room fresheners are used to neutralise pungent odours in a confined space with heavy traffic flow. These fresheners' capacity to eliminate odours contributes to the cleanliness and freshness of these spaces. They are used in places like offices, rooms, gyms, and other public places.

# Garbage Bag

Material	LDPE
Capacity(L)	20L, 40L, 60L
GSM	Black

These plastic garbage bags come in various capacities and are 100 percent recyclable. They are employed to move and collect garbage from one location to another. To keep the environment tidy and uphold sanitation, garbage bags are frequently used in businesses, toilets, schools, hospitals, and other public spaces.

# Trigger Spray Bottle

Material	Polypropylene (PP) Plastic
Cap Type	Spray
Capacity	350ml, 500ml

These spray bottles come with a trigger nozzle for easy use. They can be used to apply cleaners, disinfectants, grease removers, and other liquids. They come in handy for cleaning surfaces, such as glass doors and windows, countertops, kitchen tops, industry equipment, and more. These bottles can hold of 500ml of liquids. They are commonly used in workplaces, schools, salons, carwashes, and other public places.

# Sanitizer

Capacity(ml)	500ml,1000ml,5000ml
Alcohol %	71-80
Feature	99.9 % germs free

Sanitizers are used in lieu of soap and water for convenient hand cleansing. They are commonly used in places that require frequent hand cleansing but have no water availability. These sanitizers contain agents that help kill germs and bacteria and lessen the possibility of spreading germs. These sanitizers can easily be applied to hands and are commonly used in restaurants, malls, and other public places.

# Urinal Cubes

Pack Size	Pack of 12
Color	Multicolor

Urinal cubes come in a package of 12 and are used in toilets in schools, office buildings, restaurants, and other public places. They are used near the drains of urinals to avoid any pungent odour and maintain hygiene in rest rooms. These urinal cubes can easily absorb unwanted smells and leave behind a soothing, fragrant odour with every flush.

# Bathroom Fragrance Packets

Usage/Application	Bathroom
Packaging Type	Cakes

Bathroom fragrances are used to keep the environment smelling clean and fresh. They balance and eliminate unwanted odours in the air. These are commonly used in washrooms, locker rooms, restaurants, and other confined public places to maintain fresh air.

# Stainless Steel Pedal Round Dustbin

Material	Stainless Steel
Finish	Mirror
Rust Resistant	Yes

These dustbins are made from high-quality stainless steel which makes them durable. They have a mirror-finished appearance and a pedal for use while remaining hand-free. These dustbins are used to collect trash of all kinds in offices, schools, restrooms, and other public places. They help maintain cleanliness and hygiene in these places.

## Compostable Waste Bags

Material	LDPE
Size	20x24
Microns	75

These compostable waste bags are made from high-grade LDPE and are used to gather waste that can be composted for use in industrial composting plants. Compostable waste bags aid in lowering landfill waste and pollution.

# Plastic Bucket

Material	Polypropylene (PP) Plastic
Capacity	5L,7L,10L
Color	Customisable

Plastic buckets are used to store and transport water, cleaning agents, and other liquids whenever required. They are frequently used for cleaning and janitorial work in workplaces, dining spaces, and healthcare institutions. These buckets come in different colours and can assist in reducing the possibility of cross-contamination across work zones and encouraging safe procedures. You can also opt for bucket lids to avoid spills and contamination.

# Plastic Mug

Material	Polypropylene (PP) Plastic
Capacity	1L
Color	Customisable

Plastic mugs are used as additional aids with buckets and pails. They make it possible to use a specific amount of liquid without contaminating the residual. They are frequently used for cleaning and janitorial work in workplaces, dining spaces, and healthcare institutions.

# Cotton Duster Cloth

Material	Cotton
Color	Multicolor
Reusable	Yes

These dusting cloths are made from 100% cotton and are used to remove dust and dirt particles from surfaces, cabinets, fans, countertops, and other furniture. They are commonly used in homes, offices, schools, and hotels.

# Microfiber Duster Cloth

Material	80% Polyester and 20% polyamide (nylon)
Color	Multicolor
Reusable	Yes

Microfiber dusting cloths can be used for a variety of cleaning tasks. You can use them to clean surfaces, glass windows and doors, kitchen tops, and spills. They are easily washable and reusable. They are commonly used for janitorial tasks in schools, offices, malls, hotels, and public facilities.

# Coconut Stick (Hard) Broom

Material	Coconut Stick
Color	Brown
Weight	250-600g

These brooms feature a coconut stick that makes them sturdy while remaining lightweight. They have bristles that enable them to sweep away dust, dirt, and trash from floors and other surfaces. They are mostly used in homes, offices, and schools to maintain cleanliness and prevent debris.

## Hand Gloves

Material	Metal Mesh, Canvas, Nitrile, Latex Rubber, Leather, Butyl Rubber
Style	Plain, Printed
Glove Type	Unisex

Hand gloves are commonly used to protect hands from exposure to acids, bases, solvents, and other chemicals. They are worn by workers who are exposed to hazardous liquids. They provide a good sense of touch as well as protection. They are commonly used for janitorial work in offices, schools, restrooms, and other public places.

# Sponge Cloth

Material	Polyester, Polyurethane, Vegatal Cellulose
Color	Multicolor
Reusable	Yes

Sponge cloths are absorbent by nature. They can be dipped in water, cleaning agents, and other liquids. They are mostly used for cleaning gas stoves, kitchen counters, and other surfaces. They are made from recyclable material and can be reused. You can also wash these sponge cloths to remove dirt and germs.

# Insect-o-cutor Electric Fly Killer

Material	Plastic, Metal
Size	25x9x14inch
Number Of Tubes	2

These electronic fly killers are safe to use and easily portable. They help reduce the number of insects that can infect outdoor activities and cause food contamination. They also aid in preventing diseases like malaria, dengue, and hazardous bug bites. They help kill bugs and airborne pests of all kinds without using any chemicals. They can be used both indoors and outdoors.

# Black Hit Mosquito Spray

Fragrance	Lime
Item Volume	400 ml
Packaging Type	Steel Body

Black Hit Mosquito Spray contains chemical agents that help kill mosquitoes and other bugs. It comes in a spray bottle, which is easy to use. This spray can help you prevent illnesses and safeguard your surroundings. It can be used multiple times and comes in handy in outdoor locations. You won't have to worry about odours because it leaves a refreshing lime fragrance behind.

## Washroom Cleaner

Fragrance	Green Apple, Orange
Item Volume	500ml,1000ml
Packaging Type	Bottle

Washroom cleaners remove filth and stains from bathroom surfaces and fixtures. They also help maintain hygiene by eliminating soap scum from showers and tubs and protecting urinals and toilets against rust.

# Multi Surface Cleaner

Fragrance	Lavendar
Item Volume	500ml,1000ml
Packaging Type	Bottle

A multisurface cleaner, as the name suggests, can be used over multiple surfaces such as tables, cabinets, glass, and painted desks. These cleaners are used to thoroughly clean surfaces and remove dust and debris from them. They are frequently used in workplaces, schools, bathrooms, and other locations and do not abrade any surfaces.

# Toilet Bowl Cleaner

Fragrance	Mogra, Strawberry
Item Volume	500ml,1000ml
Packaging Type	Bottle

Toilet bowl cleaners are used to maintain cleanliness and hygiene in toilets. They contain chemical agents that prevent staining, rust, and other deposits. They also help avoid the growth of bacteria and the spread of germs. They are commonly used to disinfect toilets and eliminate pungent odours.

# Floor Cleaner

Fragrance	Citrus Peels, Lemongrass
Item Volume	500ml,1000ml
Packaging Type	Bottle

Floor cleaners are used to remove dirt and stains from floors of all kinds. They are commonly used for janitorial work in schools, offices, malls, and other public places. They aid in the maintenance of hygiene and cleanliness, as well as the protection of floor surfaces from wear and tear.
