Ajman Center for Corporate Social Responsibility

Work Ethics:

It is an integrated system of prevailing behaviors during work and in the workspace. it is a form of applied ethics and commitment to laws and the objectives of the organization and striving to achieve them, as the public interest approach is the link that combines work ethics and social responsibility, by following a basic set of ethical characteristics that include honesty, integrity, transparency, and accountability, in addition

Importance of adhering to work ethics:

Commitment to work ethics increases the interdependence between employees, and thus .increases their interaction with each other to produce the best and being socially responsible
Upgrading the morals of employees reflects a positive image of the organization as a whole
.through the interaction of employees with customers
Commitment to work ethics leads to increased productivity in the organization as a result of
.honesty in managing time, effort, and behavior
Commitment to comprehensive ethical principles such as honesty, integrity, objectivity, and responsibility

Importance of work ethics in the framework of social responsibility

Identifying distinguished experiences and exchanging experiences to reach the best
.organizational practices in the areas of work ethics and social responsibility
Holding workshops and training programs aimed at building a system of ethics that helps individuals to better understand ethical considerations in decision-making and to integrate them into their
.daily behavior and in their dealings with others and society
Educating individuals about the concept of social responsibility and its economic and societal
.dimensions
Building strategies within organizations that lead to improving administrative capabilities and
.their effectiveness and ensuring the achievement of social responsibility
Establishing that the organization's culture is important in shaping work ethics through the
.values, attitudes, and behavior of the organization, which is reflected on its people
Correct understanding of work ethics contributes to the promotion of good investment of
.organizations in human capital and the development of a set of ethical values
Spreading a culture of adherence to ethical standards and general principles when making decisions, as it plays a vital role in protecting the organization's image and reputation and highlighting it
.with a civilized and positive appearance that befits its position in society service
